Superintendent or School Leader Phone Number: 541-620-8460

Business Manager/Fiscal Agent Contact Name: Jennie Freeman

Business Manager/Fiscal Agent Contact Email:

lcdeputyclerk@grantesd.k12.or.us

Business Manager/Fiscal Contact Phone Number: 541-508-9247

Describe how you engaged your focal student groups, their families, your staff, and your broader community to inform the SIA plan update for this cycle.

• Staff met regularly throughout the year to discuss plan updates and progress. Staff also presented these reports at almost every virtual board meeting so that community and board members could hear about the latest updates and progress being made as well as future plans for the coming year. Students were informed of the additional work being completed in the school, and posts with pictures were made on Facebook with information showing progress and future plans for parents, students and community members to see. SIA updates and other school activities are posted regularly on the school website, which is available to everyone.

How did you build or adjust on your community engagement efforts from last year?

• Due to Covid-19 restrictions, LCS staff adjusted community engagement by various means in order to provide safety for all persons involved. For example, instead of a September "Back to School BBQ" hosted at the school for the community, the staff delivered pizzas to different families each Thursday over a period of several weeks in September. Staff also visited with students and/or parents via phone or Facetime every day throughout the school year. School staff also hosted meetings at the town park (weather permitting) to have face to face contact with students. Communication with students, parents, community were also made via LC School Facebook posts, informational texts and emails from the office, electronic reader board information, and letters through the mail. Each LCS student from Kindergarten through 12th grade was given an iPad to use for the school year. Because of poor cell service, the LCS purchased a cell booster for each family in the school to improve cell phone and iPad performance. This allowed all students/families to benefit from improved cell service not only for educational needs, but also for personal use (virtual doctor appointments, etc..) during the pandemic when traveling out of town was unsafe.

Who else did you engage with this year who you didn't engage with last year?

- **Community Counseling Solutions provided "Mental Health & Wellness Kits" for our 7-12 students in April of 2021. LCS delivered these kits to the students who enjoyed the fun gifts and activities in the reusable bags. Also included was a virtual scavenger hunt, and if students completed it, they were awarded with a Fitbit. Several other community programs provided our students with things like gift bags containing activities to do, books, yoga mats, or offered fun online educational opportunities. LCS staff delivered these types of gifts from different organizations throughout the year to cheer up students and lift spirits. The staff visited homes (at a safe distance) during the Christmas season to deliver gift bags to families. In spite of the pandemic LCS was able to safely provide dental services through Advantage Dental for students who had not been able to participate last year. A new secondary teacher was able to provide students in her class with a building project to do at home, which the students thoroughly enjoyed. The teacher made many trips to homes providing goodies for students who needed the extra encouragement or help to finish classwork or an online class. Teachers and Special Ed staff went to individual student homes to cover curriculum, do one on one teaching, and to improve the social-emotional wellness for our IEP students.**

Did you use the same equity lens/tool as last year? If not, please upload your new equity lens/tool

Yes - We used the same equity lens tool

Summarize how the equity lens/tool was used, by whom, and when it informed the SIA plan adjustment or amendment

• The LCS used the same equity lens as last year, which to summarize, cares for the well-being, mental, physical, and educational needs of every student. Every student was accounted for every day either by face to face, phone call, online class, or iPad Facetime interaction during the school year. If a student was struggling in a class or with any issue, they could come the school multi-purpose room - a safe, large room where a teacher would be able to work with them following all ODE/OHA safety procedures according to the RSSL. Another option we used was teachers would visit the student's home - on the porch or deck if the weather allowed - and assist students with the classwork. When students were allowed back in the classroom, sports became available, and any high school student who wished to participate could join the track and/or golf team. Dental services were provided for all students (preschool through 12th grade), school supplies were given to any student who needed them and meals (breakfast and lunch) were delivered every school day to homes for any child (0-17) or any LCS student in the district who wished to receive meals. School staff and students participated in the County Food Bank delivery program on the fourth Wednesday of every month. This program was a huge success and was well received by everyone.

Please select whether you are submitting a Plan Adjustment or a Plan Amendment

This is an SIA Plan Adjustment

Changed Charter Relationships

Not Applicable - No Charter Schools in The District

2021-2022 Proposed SIA Budget

Activity	FTE	Use Category	Object Code	Total Allocation	
					\$71,286.45
				Total Expenditures:	\$67,722.45
				Total Administrative Costs	\$3,564.00
				Unbudgeted Funds:	\$0.00
